

NEW! AC Servo Systems for LESS! systems starting at \$1690

Sure servo™

The new **SureServo** family of brushless servo systems from AutomationDirect is fully digital and offers a rich set of features at dynamite prices.

Choose from eight standard servo motors that can be used in combination with one of three standard servo drives.

- Eight standard systems from 100 W to 3 kW
- Use with *DirectLOGIC* PLCs or any other host control
- Drives feature on-board indexer and adaptive tuning modes
- Free set-up software
- Everyday best prices and same day shipping
- 2 year warranty

SureServo Family

The *SureServo* family is designed for flexibility and quick implementation. SureServo drives accept a wide range of command sources:

- Built-in motion controller w/preset position, velocity or torque
Select presets with switch inputs and/or the multi-drop MODBUS serial interface
- Position commands with "pulse and direction" or "count up and down" format
- Encoder follower
- Analog voltage Velocity or Torque command

For configuration, tuning and diagnostics, use the drives' integrated keypad/display or take advantage of the free SureServo Pro™ PC-based software. Tune the system easily with adaptive auto-tuning selections or a manual mode.

Adapt to diverse applications with configurable I/O, including 8 digital inputs, 5 digital outputs, 2 analog monitors and a scalable encoder output.

* All components sold separately.

(SureServo Pro software is available for free as a download, or for a nominal fee on a CD)

Sure servo™

SureServo™: The ultimate in flexibility and control

The SureServo AC servo systems range in size from 100W to 3kW continuous power and provide from .08 to 26.4 ft-lbs of peak torque. They can be powered with single or three phase 230 VAC. The SureServo drives can be controlled in position, velocity or torque mode. All SureServo motor sizes will be available with or without a 24 VDC holding brake. Standard cable sets from 3 to 20 metres in length will be available.
